

Daxin Materials Corporation

2022 Annual Shareholders' Meeting Minutes

(Translation)

Date and Time: 9:30 am (Wednesday) June 15, 2022

Place: No.15, Keyuan 1st Rd., Xitun Dist., Taichung City, 407, Taiwan (R.O.C.)
(Daxin Materials Corporation)

Total DAXIN outstanding shares: 102,715,911 shares

Total shares represented by shareholders present in person or by proxy: 74,055,188 shares
(including 67,490,387 shares casted electronically)

Percentage of shares held by shareholders present in person or by proxy: 72.09%

Directors present: Cheng-Yih Lin, Chairman

Tsung-Hsing Kuo, Director and President

Chin-Cheng Pan, Representative of Eternal Materials Co. Ltd., Director

Chi-Kang Chang, Representative of Eternal Materials Co. Ltd., Director

Xin-Wu Lin, Independent Director and Chair of the Audit Committee

Wei-Shun Cheng, Independent Director

Attendees: Lu, Chien-Hui, Certified Public Accountant, KPMG

Chair : Cheng-Yih Lin, Chairman

Recorder: Yen-Chen Liu

I. Call Meeting to Order (The aggregate shareholding of the shareholders present in person or by proxy constituted a quorum. The Chair called the meeting to order.)

II. Chairman's Address (omitted)

III. Report Items

(I) To report the Business of 2021

Explanatory Notes:

For 2021 Business Report, please refer to Attachment 1(P.4~6).

(II) Audit Committee's review report

Explanatory Notes:

For Audit Committee's review report, please refer to Attachment 2(P.7).

(III) To report the distribution of employees' and directors' Remuneration of 2021

Explanatory Notes:

1. The Board of Directors approved the distribution of 2021 employees' and directors' remuneration on February 23, 2022. The employees' remuneration is NT\$ 63,074,614 and the directors' remuneration is NT\$ 6,307,461; both shall be paid in cash.
2. The aforementioned amounts of remuneration to employees and Directors that are approved by the Board of Directors are the same as the amount recognized in the 2021 financial statements.

IV. Recognition Items

(I) To accept 2021 Business Report and Financial Statements (proposed by the Board of Directors)

Explanatory Notes:

1. For 2021 Business Report, please refer to Attachment 1(P.4~6).
2. The 2021 Financial Statements were audited by Chien-Hui Lu and Mei-Yu Tseng of KPMG. For Independent Auditors' Report, the aforementioned Financial Statements, please refer to Attachment 3 & 4(P.8~23).

Voting results: 74,055,188 shares were represented at the time of voting.

Voting Result	Voting rights	% of the total represented shares present
Votes in favor	67,324,795	90.91%
Votes against	7,313	0.00%
Votes invalid	0	0.00%
Votes abstained	6,723,080	9.07%

RESOLVED, that the above proposal be and hereby was accepted as proposed.

(II) 2. To accept the proposal for the distribution of 2021 earnings (proposed by the Board of Directors)

Explanatory Notes:

1. The proposal distribution is allocated from the retained earnings available for distribution as of December 31, 2021. For the 2021 earnings distribution table, please refer to Attachment 5(P.24).
2. The cash dividends will be distributed base on the proportion of shareholding as recorded in the shareholders' register on the ex-dividend date. The cash dividends will be distributed to each shareholder will be paid to the rounded-down to the nearest one NTD (any amount below one NTD will be discarded). The aggregate dividend resulting from the above rounded-down, will be distributed to the shareholders in descending order of decimal point and in ascending order of shareholder account number, until the total amount of cash dividend has been fully distributed.
3. The chairman is authorized to determine the ex-dividend date and other relevant issues upon the approval of the Annual Meeting of Shareholders.
4. In the event of the proposal be amended by the competent authorities, or the number of outstanding shares is affected by the buyback of the Company's shares, transfer of the treasury stock to employees, or the exercise of the employee stock option, and in consequence the dividend ratio must be adjusted, the chairman is authorized to adjust the dividend ratio and to proceed on the relevant matters.

Voting results: 74,055,188 shares were represented at the time of voting.

Voting Result	Voting rights	% of the total represented shares present
Votes in favor	67,324,795	90.91%
Votes against	7,313	0.00%
Votes invalid	0	0.00%
Votes abstained	6,723,080	9.07%

RESOLVED, that the above proposal be and hereby was accepted as proposed.

V. Discussion Items

(I) To lift the non-competition restriction on directors (proposed by the Board of Directors)

Explanatory Notes:

1. According to Article 209 of the Company Act, “a director who does anything for himself or on behalf of another person that is within the scope of the company's business, shall explain to the meeting of shareholders the essential contents of such an act and secure its approval.”
2. List of non-competition restrictions proposed to be lifted in the 2022 annual shareholders' meeting, please refer to Attachment 6(P.25).

Voting results: 74,055,188 shares were represented at the time of voting.

Voting Result	Voting rights	% of the total represented shares present
Votes in favor	67,285,788	90.85%
Votes against	44,321	0.05%
Votes invalid	0	0.00%
Votes abstained	6,725,079	9.08%

RESOLVED, that the above proposal be and hereby was approved as proposed.

(II) To approve the amendment of the “Articles of Incorporation” (proposed by the Board of Directors)

Explanatory Notes:

It is proposed to amend the “Articles of Incorporation” in accordance with the “Company Act” amended by December 29, 2021 Presidential Order No. Hua-Zong-1-Jing-11000115851 and August 1, 2018 Presidential Order NO. Hua-Zong-1-Jing-10700083291. For the comparison table of the Articles of Incorporation before and after amendment, please refer to Attachment 7(P. 26~28).

Voting results: 74,055,188 shares were represented at the time of voting.

Voting Result	Voting rights	% of the total represented shares present
Votes in favor	65,595,488	88.57%
Votes against	1,222,611	1.65%
Votes invalid	0	0.00%
Votes abstained	7,237,089	9.77%

RESOLVED, that the above proposal be and hereby was approved as proposed.

VI. Extempore Motions

There being no extempore motions, and the Chair announced the meeting was adjourned.

VII. Adjournment

The meeting was adjourned at 9:52 a.m.

Daxin Materials Corporation

2021 Business Report

2021 was a year of recovery from the COVID-19 pandemic. With the increase of vaccination coverage and continued growth in economic activity, the global economic recovery was driven by robust market demand.

In terms of display materials, while there was a slump in the output of display due to reduced capacity in integrated circuit (IC)—from upstream materials, the demand for displays boosted by the stay-at-home economy was rising in the second half of 2021. In addition, as the new product has entered high-volume manufacturing, the revenue in display materials has increased. Despite being affected by a shortage in materials supply and appreciation of the New Taiwan Dollar, the overall revenue in 2021 increased 5.1% year-over-year.

Daxin has been actively expanding into the semiconductor materials market in recent years. Our revenue from semiconductor materials increased 34.3% year-over-year, though it did not make a significant contribution to total revenue. The new plant at Advanced Manufacturing Center (AMC II) has been built in 2021 to meet the needs for high-volume manufacturing of semiconductor materials and key raw materials. As the new plant is certified and the demand for local chemical materials arises, the revenue from semiconductor materials is expected to grow.

Financial Performance

1. Operating revenue

Consolidated operating revenue in 2021 was NT\$4.513 billion, representing a NT\$217 million increase from the NT\$4.296 billion in 2020, or 5.1% growth.

2. Operating income

Consolidated operating income in 2021 was NT\$768 million, representing a NT\$35 million increase from the NT\$733 million in 2020, or 4.7% growth.

3. Profit after tax

Profit after tax in 2021 was NT\$680 million, representing a NT\$49 million growth from the NT\$631 million in 2020, or 7.8% growth.

Research and development:

Daxin's three major product markets include display materials, semiconductor materials, and key raw materials. In 2021, we spent NT\$440 million toward research and development (R&D), and invested a significant amount of resources innovating products and advanced manufacturing technology, acquiring precision equipment and instruments, and building plants and high-purity production lines.

In terms of **display materials**, though the LCD market has entered a maturity phase, there are few market competitors for products with high entry barriers and high profits, such as the PI alignment layer which has only a few competitors; and though there are many competitors for photo resist products, since it is heavily used by the LCD companies, we can effectively increase its profitability by reducing the cost of high-priced raw materials. Our marketing and R&D strategies of display materials are based on producing products with high entry barriers also high profitability, and reducing costs of products.

As the next generation of display technology is emerging, we are also committed to innovating and developing materials for e-Paper, eSports, automotive, and microLED displays. With the growth of market demand, we will begin to produce new products.

As for **semiconductor and key raw materials**, we have invested enormous R&D resources toward chemistry, process, and manufacturing facilities in these two fields to develop high-end products of high-quality,

low-particle and low ionic impurities (the concentration requirement of ionic impurity of certain products have even reached ppt. levels). Though we did not experience major revenue growth in 2021, we have reached important progress in terms of overall product strategies and development. Moreover, we have joined the Angstrom Semiconductor Initiative grant (priority will be given to R&D of wafer buffer layer, the regulated material) from the Ministry of Economic Affairs (MOEA). Currently, more than half of our R&D resources are dedicated to the semiconductor materials, and some of the products which are under development will be used to replace existing products, while others are being innovated in response to clients' advanced processes or new products. Most of the materials will be applied to advanced packaging process and advanced wafer process including front-end-of-line (FEOL) and backend-of-the-line (BEOL). Some of the aforementioned materials have begun transferring to high-volume manufacturing, while others have received Process of Record (POR) from clients, and will demonstrate relatively higher revenue contribution when our clients begin high-volume manufacturing. In addition, our clients include both domestic and foreign customers.

- Semiconductor material products:

Organic release layer: it has commenced high-volume manufacturing for wafer-level packaging (WLP) clients, and small-volume manufacturing for panel-level packaging (PLP) clients.

Photosensitive dielectrics: it applies various new types of packaging structure for advanced packaging processes, and serves as a bridge of interconnects to connect multiple dies with redistribution layers. It trumps all over packaging materials in terms of growth in future demand and market size.

Temporary protection layer: a temporary, organic protective material used during the post-process of silicon wafer. It can be removed by wet cleaning or dry etching after the process.

Other products such as special removers, photoresist strippers, and photoresist topcoat are also being developed and undergoing client verifications.

- Key raw material products:

The major products include: special anhydrides, special epoxy resins, crosslinkers, or additives, and these are used in displays, semiconductors, epoxy packaging materials, or other electronic materials. They are characterized by their high purity and low ionic impurities. Daxin's processing and equipment technical competency can produce small-batch and diverse types of high-end chemical products to be used in various formulations by the materials industry, thereby meeting the industry demand for high-quality and specialty key electronic materials. Though the production and sales of these products are time-consuming and take longer-term to complete, such products will have relatively long product life cycles once they have been successfully promoted.

Outline of Business Plan

In 2021, Daxin generates a significant portion of revenue from LCD materials, and launches next-generation display materials, semiconductor materials, and key raw materials to provide additional sources of revenue.

The surging demand for electronic products in the post-pandemic era and the rise of the eSports industry have accelerated the development of a new generation of display technologies. In particular, high resolution (HR), high contrast, wide color gamut (WCG), flexible OLED, and Micro-LED technologies are expected to become popular trends. We aim to enhance our competitive edge through developing new products and reducing costs.

As the technologies of semiconductor manufacturing process continue to advance in recent years, its demand for both material quality and specification has become more and more meticulous; therefore, the development and verification process of semiconductor materials has been prolonged. By proactively interacting with customers, we have shortened the product verification schedules. Key semiconductor products include the following:

1. Develop new materials required for next-generation 3D architectures and heterogeneous integration.

2. Complete the development of materials related to the processes of FEOL and BEOL in both advanced processes and mature processes, and undergo verification at clients' end.
3. Build high-purity production lines of synthesis, purification, and formulation. Improve precision manufacturing and purification technologies to provide ultra-high purity, high-quality, and consistent semiconductor-grade chemical products.

In terms of key raw materials, we will focus on the research and development of PI functional monomers, patented liquid crystal molecules, specialty cross-linkers, and additives. Additionally, we will improve our self-supply over various raw materials to avoid the instability of upstream supply chain.

Future outlook

Daxin's development strategies are focused on developing semiconductor materials and key raw materials with the support and technical experiences from display materials. Besides focusing on semiconductor materials and key raw materials, we continue to seek opportunities in 5G, electric vehicles, and various electronic component materials.

At Daxin, we believe good corporate governance aligned with our core values ultimately fosters sustainability. We promote Corporate Social Responsibility (CSR) policies and strive to practice in our business, such as offering graduate scholarship to support scientific education and actively involving in corporate volunteering. We will continue to deliver sustainable operations, build a diverse and inclusive workplace, and care for our society.

Looking forward, through our sustained investment in and dedication to research and development, Daxin aims to be a leading company for materials innovations. We will continue to invest 10% of revenue in R&D, and more than half of the workforce involved in R&D. Finally, we would like to extend our sincere appreciation to all of our shareholders for your long-term trust and continuous support.

Chairman: *Cheng-Yih Lin*

President: *Tsung-Hsing Kuo*

Daxin Materials Corporation Audit Committee's Review Report

The Board of Directors of the Company has prepared and submitted the Company's 2021 Business Report, earnings distribution proposal and Financial Statements (including the parent company only and consolidated financial statements). Among them, Chien-Hui Lu and Mei-Yu Tseng, Certified Public Accounts of KPMG, have audited the Financial Statements (including the parent company only and consolidated financial statements). The aforementioned business report, earnings distribution proposal, and financial statements (including the parent company only and consolidated financial statements) have been reviewed by the Audit Committee and no discrepancy is found. The report is in accordance with Article 14-4 of the Securities and Exchange Act and Article 219 of the Company Act, and we hereby submit this report.

To

2022 Annual Shareholders' Meeting of Daxin Materials Corporation

Convener of the Audit Committee: *Xin-Wu Lin*

February 23, 2022

Attachment 3

Independent Auditors' Report

To the Board of Directors of Daxin Materials Corporation:

Opinion

We have audited the consolidated financial statements of Daxin Materials Corporation and its subsidiaries ("the Group"), which comprise the consolidated balance sheets as of December 31, 2021 and 2020, the consolidated statements of comprehensive income, changes in equity and cash flows for the years then ended and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as of December 31, 2021 and 2020, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and with the International Financial Reporting Standards ("IFRSs"), International Accounting Standards ("IASs"), Interpretations developed by the International Financial Reporting Interpretations Committee ("IFRIC") or the former Standing Interpretations Committee ("SIC") endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China.

Basis for Opinion

We conducted our audit in accordance with the Regulations Governing Auditing and Certification of Financial Statements by Certified Public Accountants and the auditing standards generally accepted in the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Certified Public Accountants Code of Professional Ethics in Republic of China ("the Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. Based on our judgement, the key audit matters that should be disclosed in this audit report are as follows:

Notes to Readers

The accompanying consolidated financial statements are intended only to present the consolidated statement of financial position, financial performance and its cash flows in accordance with the accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to audit such consolidated financial statements are those generally accepted and applied in the Republic of China.

The independent auditors' report and the accompanying consolidated financial statements are the English translation of the Chinese version prepared and used in the Republic of China. If there is any conflict between, or any difference in the interpretation of the English and Chinese language independent auditors' report and consolidated financial statements, the Chinese version shall prevail.

1. Revenue

Please refer to note 4(13) “Revenue recognition” for accounting policy and note 6(16) “Revenue from contracts with customers” of the consolidated financial statements for further information.

Description of the key audit matter:

Revenue generation is a key operating activity of a company, and the Company’s major portion of revenue is composed of related parties’ transactions which might have inherently higher risk of fraud. Moreover, revenue recognition is also dependent on the various sales terms in each individual contract with customers to ensure the performance obligation has been satisfied by transferring control over a product to a customer. Consequently, revenue recognition is one of the key areas our audit focused on.

How the matter was addressed in our audit:

In relation to the key audit matter above, we have performed certain key audit procedures that included understanding and testing the Company’s controls surrounding revenue recognition; understanding the Company’s revenue types, its sales terms, related sales agreements and other supporting documents, to assess whether revenue recognition policies are applied appropriately; evaluating the trend of revenue; understanding the nature of related parties’ transactions; performing the circularization of related-parties transactions; computer-aided testing sales cut off, on a sampling basis, for transactions incurred within a certain period before or after the balance sheet date to evaluate whether the revenue was recorded in proper period; and assessing the adequacy of the Company’s disclosures of its revenue recognition policy and other related disclosures.

2. Valuation of inventories

Please refer to note 4(8) “The accounting policies on inventory valuation”; note 5 “Uncertainty of accounting estimations and assumptions for inventory valuation”, and note 6(5) “The details of related disclosures”.

Description of the key audit matter:

Inventories are measured at the lower of cost and net realizable value at the reporting date. Due to rapid product innovation and keen market competition, the Company’s products may no longer meet market demand in short time and lead to the rapid fluctuation in the sales demand, as well as the selling price, which may result in product obsolescence and the cost of inventories to be higher than the net realizable value. Therefore, the valuation of inventories has been identified as one of the key audit matters

How the matter was addressed in our audit:

In relation to the key audit matter above, we have performed certain key audit procedures that included evaluating whether valuation of inventories was accounted by the nature of inventories (the storage life of chemicals); performing sampling tests to verify the accuracy of inventory aging; understanding and testing the Company’s controls surrounding inventories obsolescence management; inspecting the calculation mode of net realizable value; sampling the related tickets and supporting documents; evaluating whether valuation of inventories was accounted by in accordance with the Company’s accounting policies, as well as the reasonableness of inventory provision policy; and assessing the adequacy of the Company’s disclosures of its inventory valuation policy and other related disclosures.

Other Matter

Daxin Materials Corporation has additionally prepared its parent-company-only financial statements as of and for the years ended December 31, 2021 and 2020, on which we have issued an unmodified opinion.

Notes to Readers

The accompanying consolidated financial statements are intended only to present the consolidated statement of financial position, financial performance and its cash flows in accordance with the accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to audit such consolidated financial statements are those generally accepted and applied in the Republic of China.

The independent auditors’ report and the accompanying consolidated financial statements are the English translation of the Chinese version prepared and used in the Republic of China. If there is any conflict between, or any difference in the interpretation of the English and Chinese language independent auditors’ report and consolidated financial statements, the Chinese version shall prevail.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with Regulations Governing the Preparation of Financial Reports by Securities Issuers and IFRSs, IASs, interpretation as well as related guidance endorsed by the Financial Supervisory Commission of the Republic of China, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance (including the Audit Committee) are responsible for overseeing the Group's financial reporting process.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the auditing standards generally accepted in the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with auditing standards generally accepted in the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our

Notes to Readers

The accompanying consolidated financial statements are intended only to present the consolidated statement of financial position, financial performance and its cash flows in accordance with the accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to audit such consolidated financial statements are those generally accepted and applied in the Republic of China.

The independent auditors' report and the accompanying consolidated financial statements are the English translation of the Chinese version prepared and used in the Republic of China. If there is any conflict between, or any difference in the interpretation of the English and Chinese language independent auditors' report and consolidated financial statements, the Chinese version shall prevail.

auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.

5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient and appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are Chien-Hui Lu and Mei-Yu Tseng.

Independent Auditors' Report

To the Board of Directors of Daxin Materials Corporation:

Opinion

We have audited the parent-company-only financial statements of Daxin Materials Corporation("the Company"), which comprise the balance sheets as of December 31, 2021 and 2020, the statements of comprehensive income, changes in equity and cash flows for the years then ended and notes to the parent-company-only financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying parent-company-only financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2021 and 2020, and its financial performance and its cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

Basis for Opinion

We conducted our audit in accordance with the Regulations Governing Auditing and Certification of Financial Statements by Certified Public Accountants and the auditing standards generally accepted in the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Certified Public Accountants Code of Professional Ethics in Republic of China ("the Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis of our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the parent-company-only financial statements of the current period. These matters were addressed in the context of our audit of the parent-company-only financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. Based on our judgement, the key audit matters that should be disclosed in this audit report are as follows:

1. Revenue

Please refer to note 4(13) "Revenue recognition" for accounting policy and note 6(17) "Revenue from contracts with customers" of the parent-company-only financial statements for further information.

Description of the key audit matter:

Revenue generation is a key operating activity of a company, and the Company's major portion of revenue is composed of related parties' transactions which might have inherently higher risk of fraud. Moreover, revenue recognition is also dependent on the various sales terms in each individual contract with customers to ensure the performance obligation has been satisfied by transferring control over a product to a customer. Consequently, revenue recognition is one of the key areas our audit focused on.

How the matter was addressed in our audit:

In relation to the key audit matter above, we have performed certain key audit procedures that included understanding and testing the Company's controls surrounding revenue recognition; understanding the Company's revenue types, its sales terms, related sales agreements and other supporting documents, to assess whether revenue recognition policies are applied appropriately; evaluating the trend of revenue; understanding the nature of related parties' transactions; performing the circularization of related-parties transactions; computer-aided testing sales cut off, on a sampling basis, for transactions incurred within a certain period before or after the balance sheet date to evaluate whether the revenue was recorded in proper period; and assessing the adequacy of the Company's disclosures of its revenue recognition policy and other related disclosures.

2. Valuation of inventories

Please refer to note 4(7) "The accounting policies on inventory valuation"; note 5 "Uncertainty of accounting estimations and assumptions for inventory valuation", and note 6(5) "The details of related disclosures".

Description of the key audit matter:

Inventories are measured at the lower of cost and net realizable value at the reporting date. Due to rapid product innovation and keen market competition, the Company's products may no longer meet market demand in short time and lead to the rapid fluctuation in the sales demand, as well as the selling price, which may result in product obsolescence and the cost of inventories to be higher than the net realizable value. Therefore, the valuation of inventories has been identified as one of the key audit matters

How the matter was addressed in our audit:

In relation to the key audit matter above, we have performed certain key audit procedures that included evaluating whether valuation of inventories was accounted by the nature of inventories (the storage life of chemicals); performing sampling tests to verify the accuracy of inventory aging; understanding and testing the Company's controls surrounding inventories obsolescence management; inspecting the calculation mode of net realizable value; sampling the related tickets and supporting documents; evaluating whether valuation of inventories was accounted by in accordance with the Company's accounting policies, as well as the reasonableness of inventory provision policy; and assessing the adequacy of the Company's disclosures of its inventory valuation policy and other related disclosures.

Responsibilities of Management and Those Charged with Governance for the Parent-Company-Only Financial Statements

Management is responsible for the preparation and fair presentation of the parent-company-only financial statements in accordance with Regulations Governing the Preparation of Financial Reports by Securities Issuers, and for such internal control as management determines is necessary to enable the preparation of parent-company-only financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the parent-company-only financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance (including the Audit Committee) are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Parent-Company-Only Financial Statements

Our objectives are to obtain reasonable assurance about whether the parent-company-only financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the auditing standards generally accepted in the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these parent-company-only financial statements.

As part of an audit in accordance with auditing standards generally accepted in the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the parent-company-only financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the parent-company-only financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the parent-company-only financial statements, including the disclosures, and whether the parent-company-only financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient and appropriate audit evidence regarding the financial information of the investment in other entities accounted for using the equity method to express an opinion on this financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the parent-company-only financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are Chien-Hui Lu and Mei-Yu Tseng.

KPMG

Taipei, Taiwan (Republic of China)

Notes to Readers

The accompanying parent-company-only financial statements are intended only to present the statement of financial position, financial performance and its cash flows in accordance with the accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to audit such parent-company-only financial statements are those generally accepted and applied in the Republic of China.

The independent auditors' report and the accompanying parent-company-only financial statements are the English translation of the Chinese version prepared and used in the Republic of China. If there is any conflict between, or any difference in the interpretation of the English and Chinese language independent auditors' report and parent-company-only financial statements, the Chinese version shall prevail.
